### HOW TO CHANGE OUR LIFE?

Everyone needs to question himself, or herself, on life's journey, opening the mind to new challenges regarding how to be great, how to communicate and network. Change is all about acquiring knowledge and wisdom, planning head, being able to influence, inspire, deal with change, negotiate, disagree, be a good citizen and have some common sense, reduce stress, use humor and have the intuition to facilitate success for a better future.

All the challenges we face right now are pressuring us to look differently, to sharpen and deepen our attention. To change in life, we need to shift our inner process to where we want to operate.

Today, we are confronted with more choices about how to live our lives and develop careers than ever before. Repeatedly, we are thrown into situations where we have to reinvent our professional, personnel, and relationship lines, redefining who we are and where we want to go.

Whether you are a great leader, student, parent, worker, educator, artist, athlete, physician, manager, retiree, writer, or coach, whether you work alone or belong to a team or organization, you must understand that something has to change. The threshold must be crossed before something new can come about.

Change is an inevitable part of life. To realize your potential in life you need a detailed development program that will enable you to shape up your future. That is the purposes of Change your future now! - To help you to develop a clear and detailed program for your personal growth and happiness in life.

The book shows that you are never too young or too old to change your future. It shows how to become great in any endeavor, whether it be in your career, with your family or in your community. Furthermore, it shows how to use the unique strengths you were born with and develop them to the fullest, while acknowledging and learning from your shortcomings.
